

UNDERCOVER POLICE LIGHT

the element of surprise

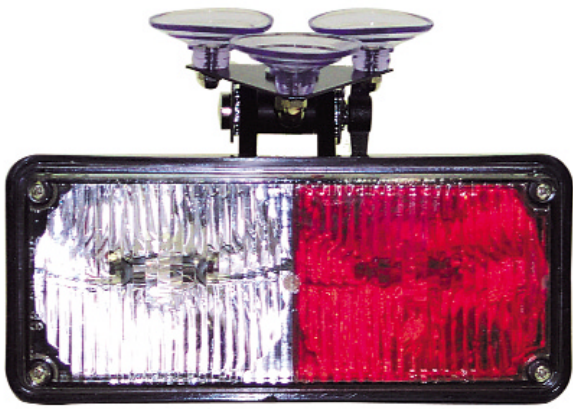

TOMAR has designed the ideal POLICE LIGHT™
for undercover vehicles.
It mounts easily to the window beneath the rear view mirror,
making it difficult to be seen from the outside. But when the
power is turned on, no one will have
trouble seeing this light due to its exclusive
NEOBE® technology, which gives the light the
look of neon with the power of strobe.

TOMAR ELECTRONICS, INC.

POLICE LIGHT™

TOMAR ELECTRONICS, INC.

This fully self-contained unit features NEOBE® technology. Offering ease of installation through tri-suction cup mounting and a 9' cord and cigar plug. Available in single strobe, dual strobe, strobe with flashing halogen, and strobe with steady burn halogen, flashing halogen or steady burn halogen.

Halogen and Strobe Operations

The Look of Neon with the Power of Strobe
